Language Rank	Types	Spectrum Ranking
1. C		100.0
2. Java		98.1
3. Python		98.0
4. C++		95.9
5. R		87.9
6. C#		86.7
7. PHP		82.8
8. JavaScript		82.2
9. Ruby		74.5
10. Go		71.9

Knowing Who is The Master

Guido van
Rossum

Creator Of
Python

James Gosling

Creator Of
Java

Bjarne Stroustrup

Creator of
C++

Rasmus Lerdorf

Creator Of
PHP

Focus

Fokus kepada satu bahasa pemrograman yang kamu sukai dan senangi.

“I fear not the man who has practiced 10,000 kicks once, but I fear the man who has practiced one kick 10,000 times.”

You = Kamu
Love = Cinta

If value = “sayang”:
Statement
if (value=“sayang”) {
Statement
}

Algorith & Logic
sama, Semua
Hanya Soal Syntax.
Fokus satu dan
kamu akan
menguasai semua
nya secara
otomatis.

Find Your Master & Be A Stalker

Borrys Hasian @borryshasian · Aug 18

For designers: without data and results, you're just another person with subjective design taste. #ux #design #designthinking

↩️ ↺️ 10 ❤️ 16 ⋮

stack overflow

If you copy from one source its called plagiarism. If you copy from multiple, its called research.

DO > READ

LEARN adalah fase belajar.

PRACTICE adalah fase praktek (latihan).

APPLY adalah fase menyatukan praktik menjadi bagian dirimu.

REPEAT adalah fase mengulang semua fase kembali ke fase LEARN.

**Before Starting Laugh and
said “Mudah dan Lucu”**

**Error is your best friend
and best teacher.**

**Don't think "someone
else will join and take
care of this" - Mike
Krieger of Instagram**

**The bad thing
is a good thing!**

**Don't use
Child Editor.**

Beutify Your Code and Use Coding Standart

***Learn about Design &
IMK***

**Don't always stay in CRUD. go away from
your Comfort zone. Learn about Computer
Science, Hacking & Security Fundamental,
Networking/Sysadmin skill, deep
understanding about system operation,
Optimization and etc**

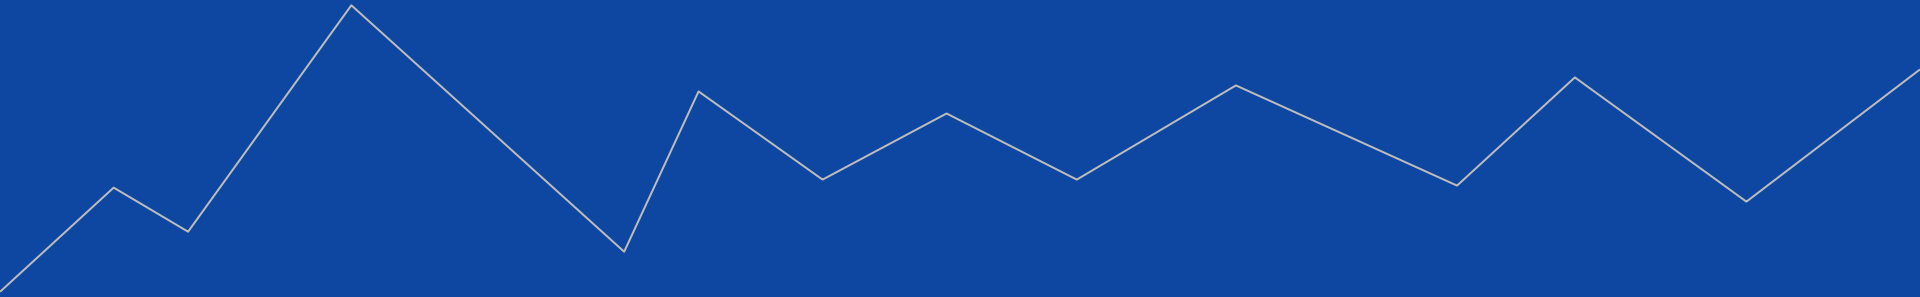

USE LINUX

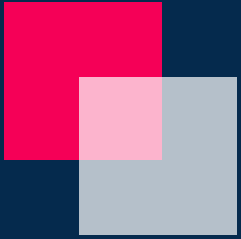

**Except
Yu are .Net Geeks**

Learn Modern Management Scrum, Kanban and etc

Use Repository code Management and control revision system

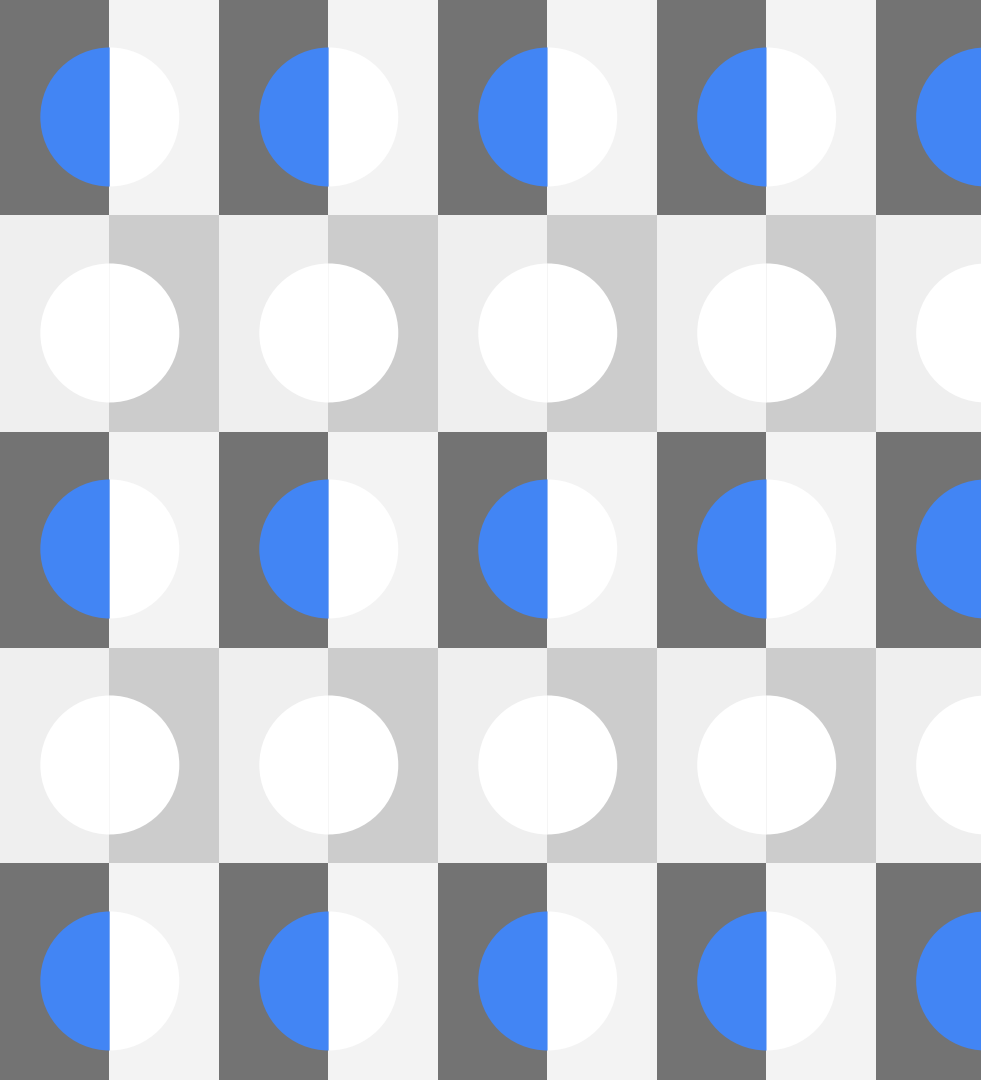

the difficult stuff
when development is
not a **code** but the
architecture

***Exercise your brain by
seeing an apps and
draw the architecture***

**Everything You
See Isn't Always
What It Seems.
Even salt looks
like sugar. trend
is not always
good for your
case. Do
Research!**

**Nail it before you scale it. It's not
about the quality or the quantity, it's
about solving the problem.**

Fauzan Emmerling

Learn Basic Communication skill and Psychology

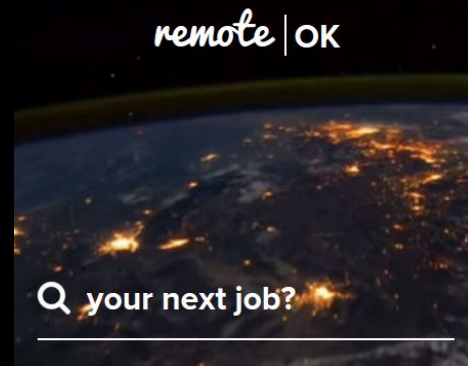

**Share Your
Knowledge.**

UpworkTM
formerly oDesk

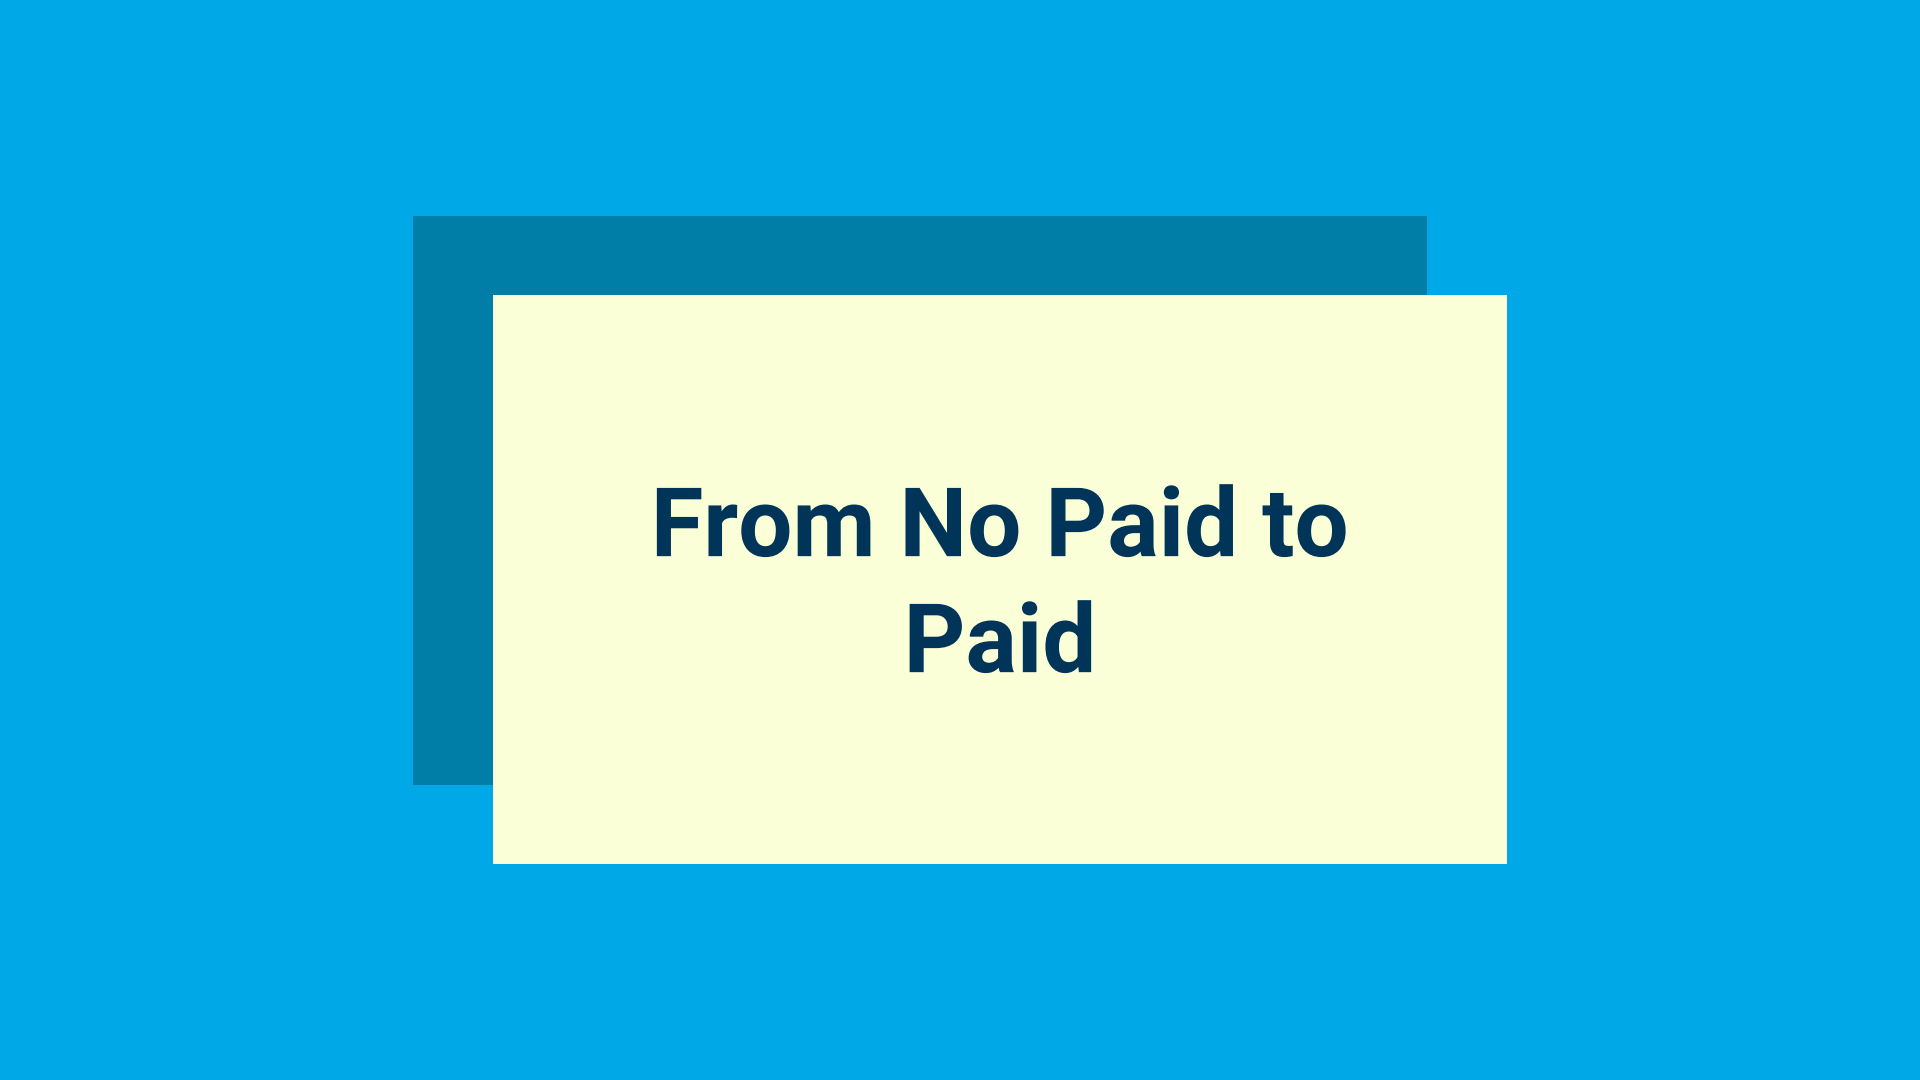

Sribulancer

Start from Freelancer

Fake it till you make it !!

 **TECHINASIA**

Refreshing = 2

Coding = 5

Or

Refreshing = 5

Coding = 2

#yeah its possible

Dont Push your self.

**Don't Forget to
Refresh your brain
or life with
something
new**

Refreshing = ["No coding", "no laptop", "meet someone", "meet new people", "meet a girl", "Quality time with your family or Best Friends", "learn something new", "/etc/"]

Question ??

**Thank you. See you Next
Time.**
